9/3/71

Dear Lou,

I have just received something on Aynesworth that I think will interest you when you are here.

Before the Shaw trial Hoo told me what he was up to. If you people kept any records on this, based on previous interest and particularly on this, I would appreciate copies.

I am aware of your personal interests that are involved, and this is a large part of what I have in mind. Although I hate to take time from the work in which I'm engaged for what is not directly related to it, if you have a file and can get a girl to make a copy for me, I'll go over it and see if anything falls into place.

Meanwhile, what follow-up is possible on this new material is initiated.

Best regards,
